Most of the electrophoretic data in the literature on proteins of *Rhizobium meliloti* seem to be unreliable. 2. The error involved in the data presented in this paper for 2 proteins is discussed. 3. The data presented in the paper represent only one strain of *R. meliloti* and thus may not be representative of the whole species. Non-invasive detection of gingival metastasis from human adenocarcinoma of the lung. We report a case of gingival metastasis of pulmonary adenocarcinoma. This is the first known report of a gingival metastasis from a pulmonary carcinoma. The lesion was asymptomatic and was detected during a routine dental examination. The occurrence of metastases in non-respiratory sites is a well-recognized phenomenon, and this case highlights its potential to mimic periodontal disease, thus generating a 0cc13bf012
