I want to format it to the following: YYYY-mm-DD. So I am subtracting 1 for the first day of the month and adding one for the day of month. I am not sure how to do the following: var x = new Date(year - 1, month, day); var newX = x.toISOString(); How do I go about doing this? A: First set a value for the day of the month. var y = 1 Then add the value: var x = new Date(year - 1, month, y) The rest of the code will convert the above to a string. Growth and differentiation factor-15 is a useful biomarker in assessing the severity of acute pancreatitis: correlation with severity scores. This study evaluated the value of serum growth and differentiation factor-15 in predicting the severity of acute pancreatitis (AP). Serum growth and differentiation factor-15 was measured on admission and compared between mild AP, severe AP, necrotizing AP, and pancreatic stone AP. Clinical scores were calculated at admission and on the second day of treatment
