MORPH 2 makes audio conversion a very creative, easy, and fun process. "...and collaborations with bands like Machine Head and The Crystal Method." Morph 2 is essentially a T-RackS system emulator, but with more advanced algorithms and more customization. Morph 2 is not only an audio emulation, but also an audio editor that allows you to do everything from editing and compressing sound, from cleaning and improving sound to creating your own presets. " "Morph 2 is an electronic music creation software (yes, this is no joke) that uses advanced algorithms and can sound like The Doors, Red Hot Chili Peppers
